**REMARKS ACCOMPANYING REQUEST FOR CONTINUED
EXAMINATION (RCE)**

Sir:

The present RCE is being filed to allow the Examiner to reconsider the pending claims in light of U.S. Patent 5,629,838 to Knight et al., which was cited by the Examiner in the Official Action of April 21, 2004, and which was addressed by Applicants in their Request for Reconsideration After Final Action that was filed on May 5, 2004.

In particular, in the Request for Reconsideration After Final Action that was filed on May 5, 2004, the undersigned stated:

In contrast, the Knight et al. patent is entitled *Apparatus for Non-Conductively Interconnecting Integrated Circuits Using Half Capacitors*. The Knight et al. patent is replete with references to "half-capacitors", and a key word search reveals that the Knight et al. patent does not include the word "inductor" or the word "inductors". Thus, for example, the reference numbers (14, 15) of Knight et al. that were cited by the Official Action are used by Knight et al. to refer to "half-capacitors". There is one irrelevant mention of the word "inductive" at Knight et al. Column 30, line 7. Accordingly, there does not appear to be a basis in Knight et al. for an anticipation rejection or an obviousness rejection of the rejected claims. (Emphasis added.)

Upon further review of the Knight et al. patent, the undersigned became aware that, although the above-underlined language in the undersigned's remarks may be factually correct, it may be factually incomplete. In particular, upon further review, the undersigned became aware that the undersigned did not perform the word search of Knight et al. to find any words containing the root "induct" (such as "inductor",

"inductive", "inductance", etc.) and for the synonym "coil". The undersigned now has performed this word search. The results of this word search are being submitted in an Information Disclosure Statement, filed concurrently, with these words highlighted in **yellow**. This word search indicates that there are multiple uses of the root word "induct" and the word "coil" in Knight et al.

The undersigned regrets the error(s) in the word search, and apologizes for any inconvenience this has created.

In view of the above, Applicants respectfully request reexamination of the pending claims in the RCE, and allowance of the present application.

It is not believed that an extension of time and/or additional fee(s)-including fees for net addition of claims-are required, beyond those that may otherwise be provided for in documents accompanying this paper. In the event, however, that an extension of time is necessary to allow consideration of this paper, such an extension is hereby petitioned under 37 C.F.R. §1.136(a). Any additional fees believed to be due in connection with this paper may be charged to our Deposit Account No. 50-0220.

Respectfully submitted,
